

“Gives the player the feel of throwing the ball to the hole” SMG

Advance SMG TOUR GRIND Wedges feature a unique combination of technology and TOUR experience to deliver a HIGH precision golf club and maximized performance in all scoring areas.

A superior tour proven grind increases playability and delivers a solid impact on every shot.

The Advance APT Metal Powder face provides a “GRAB EFFECT” in every shot, as the ball makes contact with millions of metal particles increasing spin and distance control.

Advance SMG Tour Grind Wedges
